

**Testimonial from SpinoS Life Science and Research Pvt. Ltd.,
Coimbatore, India**

We have OVIS software from the year 2011.

Service of Inforcom is very fast and reliable for any challenges that are faced.

As a company they are supportive in terms of regulatory documentation which is required in the CRO field .

Thanks & Regards,

R.Abiraamasundari

Testimonial for OVIS

To whosoever it may concern

This is to certify that Lambda Therapeutic Research Ltd. is a contract research organization (CRO) in Ahmedabad, India, conducting Bioavailability / Bioequivalence studies and Phase-I to IV clinical trials.

Enrollment and recruitment of human volunteers / subjects is done for the purpose of conducting clinical research. Ahmedabad as a city has many CROs. One of the routine problems is cross-participation of volunteers / subjects across these various CROs. Inforcom Technologies provides a service called "Online Volunteers Information System". This service has the following components:

- secured access rights and data confidentiality
- facility to upload the volunteers to be checked
- data validation and verification
- probable matches based on volunteers' name and gender
- View basic shareable volunteers' data of various CROs
- Image viewing for a match with the existing data on web
- View existing status of a volunteer
- Assign / edit new status
- Data entry editing windows and locking
- View status of any volunteer initialize by a (that) CRO
- Download volunteer status for local database upgrading
- Password control and profile editing

The web-based service has helped us reduce the volunteer cross participation rate because of its unique configuration to view the shareable information from other CRO. This volunteer tracking tool was in use at our facility while ANVISA and Thailand FDA audited Lambda Therapeutic Research Ltd.

This application has entered the pharmaceutical industry and the CRO arena in a very optimum shape and design with an increase ease of use and reduced complexity. It is of great help to the CRO fraternity in India.
